

"TONOPAH IS THE ONLY SPOT IN NEVADA," Says Mining Man Representing One of the Largest Investments in the State

GREEK FLEET WILL ATTACK CONSTANTINOPLE AS SOON AS STRAITS ARE CLEARED FOR ENTRY

(By Associated Press)
SOFIA, Feb. 6.—The main object of the Bulgarian armies, apart from the reduction of the fortress of Adrianople, was disclosed in official despatches given out today.
The plan is to reach the Dardanelles straits, clear them for passage of the Greek fleet into the sea of Marmora. Then the Greeks will attack Constantinople directly from sea.
One column of King Ferdinand's troops marching for the city of Gallipoli, has already occupied four villages on the neck of the peninsula, on which are said to be 70,000 Turkish troops. The whole coast of the sea of Marmora as far as the town of Bolair, is reported in the hands of Balkan allies.

DAMAGE DEMAND GOES TO THE TRIAL JURY

MANHATTAN SUIT FOR INJURIES DEVOLVES SOME NEW POINTS

The case of Ryan vs. the Manhattan Four company of Manhattan, now before the district court, is likely to go to the jury this afternoon.
This is a suit where the complainants bring into action a point that has never been brought out in a damage or any other kind of a suit in Nevada. This is that almost every other mining company is violating the law by using buckets and crossheads in shafts dropping to a depth of over 250 feet instead of supplying them with cages properly equipped for the protection of life and property.
This is something that has been regarded as a dead letter to a majority of mining companies, few of which knew of the existence of such a law.

CHANGE IN DIRECTORY OF FIRST NATIONAL

Major J. H. Monteath has resigned as director of the First National bank of Tonopah and has been succeeded by Arthur H. Lawry of the Montana Tonopah and Mispah Extension. Lawry is one of the brightest and most conscientious young engineers of the district and has made his mark since coming to Tonopah from Goldfield two years ago. The injection of young blood into the bank will be acceptable proof of the growth and enterprise of that institution, which aims to keep abreast of events.

CLEAN-UP OF UNDESIRABLES

DRASTIC ACTIONS TAKEN TO IMPROVE HEALTH CONDITIONS AT ROCHESTER

About 50 cases of pneumonia at Rochester and a steady stream of patients from that camp to the county hospital, which crowded that institution to an alarming extent, resulted in drastic action being taken by the authorities to eliminate such conditions.
An order was issued by Dr. Russell of Lovelock, health officer for Rochester, requiring all places of business to close at 5 o'clock at night. The result was that the next day about 30 "undesirable citizens" who had not the price of a meal or a bed, but who went into the camp and bummed their living from day to day, started back to Lovelock. A few got rides on freight wagons, but the most of them walked the entire distance, about 22 miles. Then, in order to help a good thing along, the authorities of Lovelock grabbed the undesirables and started a class in manual training, in charge of a competent instructor, on the streets. The scheme has apparently worked admirably all around. Superintendent Wilkinson of the hospital has had a chance to get his breath. Rochester has been relieved from a serious predicament, Lovelock is having her streets cleaned and the "undesirables" are learning the taste of bread which they have really earned.—Humboldt Star.

FIREFIGHTERS ARRANGE FOR REORGANIZATION

PROPOSE TO MAKE THE GYMNASIUM ONE OF THE STANDING INSTITUTIONS OF CITY

The Volunteer Firemen's association plans a five, energetic campaign to enlist a greater interest in the welfare of the order. Last night the meeting called by President Epstine was one of the best attended in the district and argued well for the future of the boys who are willing to devote themselves to the protection of property.
After a discussion it was resolved to engage G. H. Morse, formerly with the laundry company, to take charge of the gymnasium and to look after the wants of the members. The water company sent word that a full supply would be available after today when hot and cold baths can be enjoyed by the members the same as during the summer time for the nominal price of a dollar a month with the small stipulation of five cents each for a towel.
A committee consisting of L. Gregovich, A. M. Murphy, Scott Mullen, George Dugan and C. Hanna was appointed to arrange for the annual ball, which is expected to net the boys a handsome sum to enable them to continue their good work in the community.
James R. Murphy, the former athletic instructor, will continue to give lessons in the punching bag, boxing and other forms of physical development and also make a special feature of the wants of individual members. He has in mind an entertainment consisting of boxing bouts, club swinging and bag punching for the 10th of this month which he expects will net the association a tidy sum.

RUSH FOR GOLD CAMP FAMOUS IN SEVENTIES

NORTH UMBERLAND IN LANDER COUNTY, PROMISES TO HAVE A REVIVAL

Three auto loads left Manhattan yesterday for the old camp of North UMBERLAND, which is said to have shown up some high if not remarkable values in the last few weeks. The rock shows gold in quantities that will lead to a revival of the district at once if the preliminary reports are confirmed but for the present those who are interested are waiting for some definite information from the advance guard.
"Shorby" Kutkay, who came in last night from Manhattan, states the specimens shown yesterday were all of the real ginger type with the worth soaring into the hundreds.
North UMBERLAND is situated about 40 miles northeast from Manhattan in Lander county, past the Pine Tree ranch. Thirty and 40 years ago the district was famous as a shipper of free gold to the mills at Eureka and Austin.

FULL CREW LAW SUSTAINED BY STATE BOARD

NEVADA JOINS WITH OTHER STATES IN INSISTING ON PROPER CONDITIONS

Special to the Bonanza

CARSON CITY, Feb. 6.—The railroad commission of Nevada, in compliance with section 31 of the railroad commission law, which makes it the duty of the commission to enforce the provisions of the railroad commission law and all other laws relating to railroads, has reported to Attorney General George B. Thatcher that the Southern Pacific company is now and has since about July 20, 1909, been operating their freight trains between points in Nevada in violation of an act to promote the public safety passed March 25, 1909, and known as the full train crew law. The law requires all railroads operating freight trains that carry in excess of 50 cars to provide not less than three brakemen on such trains.

The constitutionality of a police regulation of this kind has recently been sustained by the United States supreme court when it passed upon the validity of the Arkansas and Indiana full crew laws which were before the court upon writs of error from the state courts.

The Nevada full-crew law is practically the same as the Indiana law and therefore in view of the fact that the right of the state to impose a regulation of this nature has been sanctioned by the United States supreme court, the people are demanding that the law be enforced.

The commission's report covers a number of specific violations giving dates, designated train numbers, the number of cars in each train, and the names of the trainmen in charge of such trains.
Upon the basis of these violations the attorney general is requested to begin legal action for the enforcement of the law.

DIVORCE BILL REPORTED BY SIX TO ONE FROM COMMITTEE

(By Hans Durlf)

CARSON CITY, Feb. 5.—The judiciary committee reported the divorce bill yesterday afternoon by six to one in favor of the amendment with a recommendation for immediate action. The Washoe committee proposed reference to the public morals committee to strangle the bill, but a test vote showed that the free and easy element was in a minority too great to have their feeble efforts entertained. The test vote stood 22 to 29 and after that there was nothing doing except to consider what might be done in the way of further blocking of legislation for the betterment of the morals of Reno.

This vote indicates the passage of the bill without any further delay with the Nye county delegation as solid as the rock of Gibraltar. The Esmeralda bunch is standing in with the Washoe crowd, which emphasizes the belief that the coalition of the organizing hours still holds good. The bill was made a special order for tomorrow morning at 11 o'clock and there is little doubt of its passage at that time.

The bill was presented to the assembly by the judiciary committee with a minority report which was given by Assemblyman Gardiner of Reno.

The majority report provides for the bill going into effect January 1, 1914. The period of residence is fixed as six months for those whose causes of divorce arise within the state and 12 months for those who come to Nevada from another state to secure a divorce.

Gardiner started for the door when a motion was made to accept the report of the committee and to make the bill a special order for Friday.
